Kirami Kirami feed-through

WEIGHT:	0.06 kg

6430036751647

A feed-through part used inside Kirami hot tubs, which can be closed with its own plug. Used at the bottom of the hot tub, for connecting heaters and filter feed-throughs. M6 brass internal thread on the inside and 2 1/2” external thread on the outside. Made of ABS plastic. A separate protective grate that is available in several colors is installed on the feed through part.
Gray color.
