

Kirami Biocool Clean my poolfilter

Swimming pool filter cleaner.

All particles in the pool water are collected in the system's filter cartridge. By ensuring regular cleaning of the filter cartridge, you also ensure the quality of the water in your pool. Biocool Clean my pool filter cleans the filter cartridge through a simple soaking process and requires minimal effort on the part of the user. The result is pool water that is free from dirt and harmful microorganisms such as bacteria, parasites or fungi.

Certain particles are too small to be able to be collected by the filter. For that reason we recommend that you also use Biocool Clear my pool water, which causes the particles to aggregate so that they can more easily be captured by the filter.

Biocool Clean my pool filter is

- Gentle – the product carries the Swedish Asthma and Allergy Association's mark
- Chlorine-free (does not contain any forms of chlorine, a substance that wears down the fibres in the filter, does not release active chlorine and thus does not generate any chloramines, which are harmful to people's health)
- Odourless
- Biodegradable
- The filter's useful life is extended
- Reduced waste thanks to a longer useful life for the filter
- Easy to use (no complicated processes; just soak and rinse)
- Proven effectiveness

About Biocool

Biocool provides gentle, simple and effective products for clean water and healthy skin. Biocool comes from northern Sweden, where simplicity and purity are guiding principles in everything we do. Our goal is to develop high-quality products that are kind to people and the environment. The products are simple in their design and use, with proven effectiveness. At Biocool we are passionate about making a contribution to society's efforts to reduce the use of chlorine and antibiotics. All of Biocool's pool products are free from chlorine compounds that release active chlorine, and consequently the products do not generate any chloramines, which are harmful to people's health.
