Chimneys adjustable corner pieces, with 0–90 degrees

Kirami heaters can be equipped with a range of chimneys made from acid-proof stainless steel, with a diameter of 120 or 150 mm. Our range of chimneys includes ready-made sets, individual spare parts and a variety of extension pipes. Meanwhile adjustable corner pieces, with 0–90 degrees, make it easier to build optimal chimney solutions for difficult spots, such as when your hot tub is located under a roof or near a wall.

Our high-quality factory-made pipes are made out of acid-proof stainless steel. Extension piece for adding corners to a heater chimney. The corner piece can be adjusted to lead the chimney pipe away from a roof or a wall, for example.
