Kirami's product range includes ABS-plastic cover (Acrylonitrile butadiene styrene) for most of hot tub models. A cover is especially useful accessory, with it you can speed up heating of your hot tub, keep the water hot for a longer time and optimize heating performance on the following day. The cover also protects your hot tub from debris and with a cover your hot tub remains clean when empty, and as well it protects inner parts of hot tub from UV-radiation. The cover improves safety especially for families with children and pets.

An ABS plastic cover for heaters, compatible with 170 cm Kirami hot tubs that use an internal heater (SUB, Sub LT and SIDE). This cover part is meant to only cover the smaller heater side of the hot tub. To cover the entire tub you will also need the larger tub side cover, sold separately. The heater side cover cannot be used without the tub side cover. The heater side cover is fastened to the tub side cover using the fastening kit delivered with the tub side cover. The pieces of the fastening kit are attached to the heater side cover when it is used.
