

Kirami Roasty Boss pot

The Roasty Boss range of Kirami's Outstanding product family includes a basic pot made of COR-TEN® steel as well as better-equipped grills. Roasty Boss products are made of cold-rolled, weatherproof COR-TEN® steel, the surface of which develops a rust-like patina over time, serving as a durable protective layer for the metal underneath. Before the protective layer is formed, some rust will come off the steel surface with rainwater.

The sturdy Roasty Boss pot can also be used as an outdoor fireplace to bring light and atmosphere to the darkening nights on a beach or on your patio. The robust Roasty Boss is a Finnish product, entitled to use the Key Flag Symbol.
