Macu is Kirami's popular 29 kW external hot tub heater. The heater's power output makes it ideal for medium-sized hot tubs.

All Kirami hot tub heaters are manufactured in our own production facility out of high-quality AlMg3 marine aluminium, which boasts excellent thermal conductivity. Each and every one of our hot tub heaters is pressure tested before going on sale. 150mm chimney is suitable for this heater.

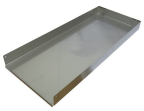

The hot tub is heated with a shapely external grey Macu heater, suitable for heating medium-sized tubs. It is made out of high-quality marine-grade aluminium.

Product code: MACU
Harvia code: KIR-1574
