With a power rating of 42 Kw, TUBE is Kirami's most powerful round external hot tub heater. Available for both wood and plastic hot tubs. The standard TUBE model is right-handed, but a left-handed model is also available.

All Kirami hot tub heaters are manufactured in our own production facility out of high-quality AlMg3 marine aluminium, which boasts excellent thermal conductivity. Each and every one of our hot tub heaters is pressure tested before going on sale. Our range of heaters is sure to satisfy your every preference and need, and includes both internal and external heaters.

The hot tub is heated with an extremely efficient Tube heater, rounded in shape and bronze in colour; it heats even large tubs quickly. It is made out of high-quality marine-grade aluminium.

Product code: TUBE-ALU
Harvia code: KIR-814
