A hot tub that offers comfort and modern style for people who appreciate easy-care products. As a part of Steady hot tub's design the built-in bench makes it easy to bench into and out of the tub. You can rest your back on the specially designed edges of the bench and for two people the it can also be an armrest. The smooth and light coloured surface of the plastic allows LED-lightning to be installed as additional equipment. Factory fitted LED-lighting creates a fabulous atmosphere in the evening twilight.

The hot tub is heated with a shapely external grey Macu heater, suitable for heating medium-sized tubs. It is made out of high-quality marine-grade aluminium.

The outer shell is made out of recycled plastic panels in timeless night black that suit a modern environment. The smooth surface is easy to clean, and the material needs no additional treatment besides cleaning. As inside colour, translucent casual grey is frank and carefree. The grey interior is always timeless and elegant, and it blends in beautifully with the environment.

The barrel diameter is 170 cm and water volume 1420 litres. It is suitable for 4- 6 people. The dry weight of the hot tub is 157 kg. The gross heat output of the MACU stove is 40 kW and the net heat output transferred to the water is 29 kW.
