

Kirami Biocool Shock my spa system

All-round cleaner for the pool, both for the hose and pipe system. Cleaner has been developed for general cleaning of tubs, hoses and pipes in spa baths and hot tubs. Use recommended prior to changing water 3–5 times a year. Reduces the build-up of biofilm and deposits, thereby improving the quality of your bathing water. Environmentally friendly and biodegradable.

One jar (1,000 g) is sufficient for a system with 1,000 litres of water.

The product is not classified as hazardous waste. The packaging is sorted as hard plastic.

Biocool Biocool Schock my spa system is

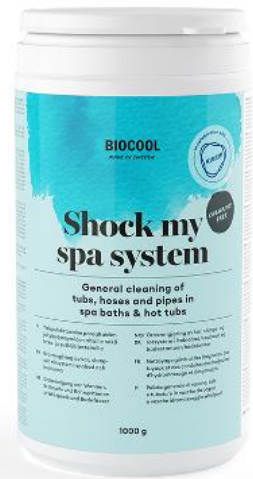

- Gentle
- Chlorine-free
- Odourless
- Biodegradable
- Easy to use
- Proven effectiveness

About Biocool

Biocool provides gentle, simple and effective products for clean water and healthy skin. Biocool comes from northern Sweden, where simplicity and purity are guiding principles in everything we do. Our goal is to develop high-quality products that are kind to people and the environment. The products are simple in their design and use, with proven effectiveness. At Biocool we are passionate about making a contribution to society's efforts to reduce the use of chlorine and antibiotics. All of Biocool's pool products are free from chlorine compounds that release active chlorine, and consequently the products do not generate any chloramines, which are harmful to people's health.
