

# Kirami Wooden Chill Steps

Kirami's wooden, 23-cm high Chill steps conform to the contours of your hot tub, making them the ideal accessory for complementing and adding the finishing touch to your hot tub. Adding a set of steps also makes getting in and out of your hot tub safer. These light yet durable steps are delivered pre-assembled, making them easy to install.

The heat-treated pine used in the outer shell is a Finnish alternative for dark-coloured imported wood. ThermoWood is a high-quality, long-lasting material with a warm brown colour that maintains its shape well.
