Cool down in a genuine wooden tub, Wood Dippy. The Woody hot tub is also available without a heater and its installation holes. This allows it to serve as a heavenly refreshing dipping tub on a hot summer's day or after a vigorous session in the sauna. Cold water can also mimic the feel of winter swimming, delivering the same health benefits year round. After all, using cold water to recover is a widely recognised method amongst athletes.

No heater.

The outer shell is made out of North American wood with excellent rot resistance. In time, the wood becomes a beautiful silvery grey.

The barrel diameter is 170 cm and water volume 1860 litres. It is suitable for 4-6 people. The dry weight of the hot tub is 120 kg.
