WEIGHT:

5.1 kg

6417659032155

The Harvia additional heater is a high quality water heating unit for hot tubs, designed and manufactured in Finland, for outdoor use. The additional heater is meant for maintaining the temperature of the pool water. It can be used together with Kirami hot tub heater.

The product contains:

- Additional heater for Kirami/Harvia hot tubs 3000 W / 230 V SST
- PVC pipe D75mm 230mm
- 2 x Connecting hose id 75 / 95 mm
- 4 x Hose clamp 80-85 W1

The additional heater is a safe and simple solution for heating the hot tub. The heater is easy to install next to the regular stove and it is connected to the power supply with a plug. The desired temperature is set using a control knob. Carefully selected materials and components guarantee high quality and durability of the heater. The heater body is made entirely of strong stainless steel and the resistors are made of titanium. The additional heater is easy to maintain and spare parts are available if required.
