Kirami 90 degree angle set for heater connection

WEIGHT:	1.95 kg

6430036756994

Do you need flexibility in positioning your Cult stove? Would you like to fill the stove's firebox from a more convenient direction?

This is easily achieved with Kirami's 90-degree angle set, which allows the stove to be placed in tighter spaces as well.

An accessory that enables various stove installation options. The connection set is used to reposition the Cult stove 'sideways.' Additionally, it allows the Macu stove to be adjusted using **Kirami's Extension pipe kit for stoves**.
