TW Deep Black Annex

WEIGHT:	41 kg
PRODUCT LENGTH:	200 cm
PRODUCT WIDTH:	200 cm
PRODUCT HEIGHT:	8 cm
OUTER COLOR :	TW Deep Black Annex

Are you longing for a quiet corner in your garden where you can relax, eat or read with a light outdoor privacy screen?

The Kirami FinVision® Misty series offers you a matching ready-made privacy screen for your garden and patio as an accessory for the pergola. Made from heat treated black *spruce slats, the elegant garden screen matches the other Misty products perfectly. If you wish, you can attach the patio and garden screen to one or more pergola walls. With the help of the garden privacy screen, you can increase your privacy, limit access and bring new life to the pergola by customising it as you wish.

A patio privacy screen on the pergola makes your garden cosier

Create yourself an oasis of tranquillity in a corner of the pergola with the plants and lighting of your choice. The trellis of the privacy screen lets in plenty of light and can be used to hang plants inside or to attach climbing plants to the outside of the trellis to support the growth of hops or grapes, for example, towards the pergola roof. Now add a pretty, atmospheric chain of lights to the roof of the pergola or to the trellis and you won't want to spend your free time anywhere else but in your own cosy feel-good corner in your garden, alone or with friends.

The Kirami FinVision® pergola M Misty fits a size M garden screen.

This garden privacy screen can be mounted both vertically and horizontally. Choose the position of the garden screen and its trellis to suit your visual preferences or to best ensure the desired level of privacy. In the upright position, more light passes through the trellis and the transparency is better. In the horizontal position, the garden

screen provides more privacy in your relaxation area.
